

FREE REACTIONS

Our new improved Reactions lenses react to light faster than ever. In sunlight they darken in seconds, while indoors they fade more quickly than before. So you'll only ever need one pair of glasses, come rain or shine, indoors and out. They're available in grey or brown and are suitable for a wide range of prescriptions. Reactions normally cost an extra £49, but right now, when you buy glasses from our £75 range or above with single vision, bifocal or varifocal lenses, we'll add Reactions free. That means you can have:

- SINGLE VISION REACTIONS GLASSES FROM £75**
- DESIGNER SINGLE VISION REACTIONS GLASSES FROM £125**
- BIFOCAL REACTIONS GLASSES FROM £110**
- VARIFOCAL REACTIONS GLASSES FROM £134/£154/£184†**

Free eye examinations funded by the NHS

Eye tests are paid for by the Scottish Executive, so why not have your eyes examined at Specsavers? Our fully-qualified and highly-trained optometrists will perform a comprehensive test and answer all your questions. Then choose from our huge range of glasses and contact lenses. Come and see why we're number one for eye tests.*
